CBD Products

CBD (Cannabidiol) is a cannabis compound that many believe has significant benefits for anxiety, pain, sleep, PTSD, arthritis etc, but does not make the user feel “stoned” or “high”.

Consequently, unlike other cannabis compounds CBD is completely legal.

The fact that CBD is non-psychoactive and totally legal makes it an appealing option for users looking for relief; without having to worry about psychoactive effects or potentially failing drug tests.

To get the full benefits of CBD however, it is essential to choose a brand with high quality CBD.

At Tiny Brander we have you covered with high quality, US made, and independently tested CBD.

Hangover Products

The global hangover prevention market size was valued at USD 3 billion in 2026 and is expected to expand at an annual rate of 14.6% to over 5 billion!

Alcohol has many diuretic properties which makes it very easy to lose necessary nutrients and antioxidants while drinking. With the ever growing preference for natural products, our careful blends of nutraceuticals and herbs can help prevent this loss of antioxidants and vitamins, and help aid the metabolism of alcohol in the liver and kidneys.
